## Drowning Is Preventable

Aqua Culture Swim School was founded on the simple yet powerful assertion that Drowning IS Preventable. Drownings are the leading cause of injury death for children ages 1 to 4 and the second leading cause in children 1 to 14. Research has shown that participation in formal swim lessons can reduce the risk of drowning by 88%.

Please contact us if you are interested in a water safety presentation for or let us know if your organization would like to partner with the Safer 3 Water Safety Foundation and the National Drowning Prevention Alliance to reduce drowning in the US and around the world.
